NFL best bets, Week 9

Best Bets record so far: 9-4 (69.2%), +25.7% per unit, CLV –0.0%. Full record on the board's Model record page.

Board built 2026-11-10 00:10 UTC; book prices as of 2026-11-09 23:19 UTC; injury report 2026-11-10 00:08. Results through Nov 8, 2026. Bankroll $1,000. Lines move: check the book before betting.

The card: 0 bets

In the order to take them: prices that beat Pinnacle's own number first (no model needed), then the model's edges against the opening line, wind unders, and nothing on the model alone (no stake: those are in Model leans, a separate document). Moneylines appear only when a price beats the sharp line. Stakes are quarter Kelly, capped at 3% a bet, sized as if 8% of the model's claimed edge were real — bets marked (bucket) are sized from their bucket's own record instead. Weekly cap 10% of bankroll; this week 0.0%. Wind unders are staked at half until they have a season graded on forecasts.

Nothing to bet this week: no price beats the sharp line and the model is not far enough off any opener.

Teasers: 0 legs clear at −120

Six points added, chances from the market's own curve (no model); a two-leg teaser at −120 needs every leg above 73.9%. Wong legs cross both 3 and 7. Enter your book's price on the board's Teasers section if it differs.

No leg clears the break-even at −120 this week.

Player props

No props file for this week is on hand (they arrive with the props run about three days before kickoff).

For research and entertainment. Past results do not predict future results, and nothing here is betting advice. Every number is the board's projection at build time; the live board (rhyman7.github.io/fb-value-board) is current.
