The card: 8 bets

In the order to take them: prices that beat Pinnacle's own number first (no model needed), then the model's edges against the opening line, then the model alone. Moneylines appear only when a price beats the sharp line. Stakes are quarter Kelly, capped at 3% a bet; the model's own edges carry no stake, since its edge against consensus lines did not hold against Pinnacle's real 2024-2025 numbers (Model record, method) — bets marked (bucket) are sized from their bucket's own record instead. Weekly cap 10% of bankroll; this week 0.0%.
