NFL best bets, Week 8

Board built 2026-10-30 15:43 UTC; book prices as of 2026-10-30 08:15 UTC; injury report 2026-10-30 15:41. Results through Oct 29, 2026. Bankroll $1,000. Lines move: check the book before betting.

The card: 11 bets

In the order to take them: prices that beat Pinnacle's own number first (no model needed), then the model's edges against the opening line, wind unders, then the model alone. Moneylines appear only when a price beats the sharp line. Stakes are quarter Kelly, capped at 3% a bet; the model's own edges carry no stake, since none of their claimed edge has shown up in the graded bets of the last eight seasons — bets marked (bucket) are sized from their bucket's own record instead.

Every game: where the model leans

The board's side of each spread and total (the market-adjusted projection's), with its chance. Most sit close to 50%: a lean is not a bet, and the bets are the card above.
