The card: 24 bets

In the order to take them: prices that beat Pinnacle's own number first (no model needed), then the model's edges against the opening line, then the model alone. Moneylines appear only when a price beats the sharp line. Stakes are quarter Kelly, capped at 3% a bet, sized as if 52% of the model's claimed edge were real — bets marked (bucket) are sized from their bucket's own record instead. This week's bets added up to 10.3% of bankroll, over the 10% weekly cap, so every stake is scaled to 97% of its size. Book prices are 6 hours old: check every price bet against the book.
