College football model leans, Week 11

Board built 2026-11-08 15:28 UTC; book prices as of 2026-11-08 08:42 UTC. Not bets: these are where the model disagrees with the market and why. The bets are on the Best bets card.

Every game: where the model leans

The board's side of each spread and total (the market-adjusted projection's), with its chance. Most sit close to 50%: a lean is not a bet; the bets are on the Best bets card.
