The card: 5 bets

In the order to take them: prices that beat Pinnacle's own number first (no model needed), then the model's edges against the opening line, wind unders, and nothing on the model alone (no stake: those are in Model leans, a separate document). Moneylines appear only when a price beats the sharp line. Stakes are quarter Kelly, capped at 3% a bet, sized as if 11% of the model's claimed edge were real — bets marked (bucket) are sized from their bucket's own record instead. Weekly cap 10% of bankroll; this week 4.5%. Wind unders are staked at half until they have a season graded on forecasts.
